

TALENS ECOLINE

TALENS ECOLINE HAS BEEN PART OF THE CREATIVE LANDSCAPE SINCE 1930.

Whether this involves artistic impressions, product design, illustrations, fashion design, calligraphy or children's drawings, the brilliant colours of this liquid water colour paint bring every piece of art to life. Talens Ecoline is available now in 60 colours.

Talens Ecoline is available in 30 ml bottles and in 490 ml and 990 ml refill packs. Handy Brush Pens are also available, ready for immediate use.

PROPERTIES

TALENS ECOLINE IS KNOWN FOR ITS BRILLIANT, BRIGHT COLOURS.

The transparent colours give the best results when used on white or very light-coloured paper; this can be drawing paper, cardboard or water colour paper. Talens Ecoline has a short drying time. It is not waterproof when dry, so you can work on it "further" by wetting what is dry once more

Thanks to its pure formula, based on dyes and Gum arabic, the colours of Talens Ecoline are astonishingly bright and brilliant. If you wish, you can easily decrease the colour intensity through thinning with water or with the Brush Pen blender. Store the original works of art in a portfolio for optimal colour retention.

Brush Pen

THE TALENS ECOLINE BRUSH PEN IS VERY USER-FRIENDLY. HANDY WHEN TRAVELLING AND IDEAL WHEN WORKING AT A PLACE THAT NEEDS BE KEPT CLEAN. THE BRUSH PEN IS READY FOR IMMEDIATE USE, AND IS ODOURLESS AS WELL.

You can use the Brush Pen for thin, precise lines or for energetic strokes, but also for filling in large colour sections. The Brush Pen is suitable for both a quick sketch and adding the finishing touches. The concentrated formula of the Talens Ecoline in the Brush Pens ensures for a seamless transition with the Talens Ecoline from the bottles.

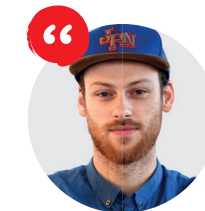

Using the special Brush Pen blender, colours can be mixed or subdued, and some wonderful wash effects and colour transitions can be created.

Forgotten to put the cap back on? A dried brush tip can be easily saved by moistening it with some water. The Brush Pen is available in 60 colours and a blender.

Bottles

THE NEW ECOLINE BOTTLE IS STABLE AND SO STANDS FIRMLY ON YOUR WORK TABLE. THE SPACIOUS OPENING ALLOWS YOU TO WORK STRAIGHT FROM THE BOTTLE USING A BRUSH OR DIP PEN. THE NEW ECOLINE BOTTLE IS FITTED WITH A HANDY PIPETTE FOR EFFICIENT DOSING DURING MIXING.

JESSE STRIKWERDA
Illustrator

"As an illustrator I use the computer a great deal. The Talens Ecoline Brush Pen has the attractive, bright colour that we are familiar with from Talens Ecoline. It is wonderful drawing with it, but when thinned with water it is great for creating water colour sections. I enjoy bringing my illustrations to life in this way."

APPLICATIONS

THE VERSATILITY OF TALENS ECOLINE CAN BE SEEN FROM ITS WIDE SPECTRUM OF USERS. FROM SCHOOL CHILDREN MAKING THEIR FIRST PIECE OF ART USING A SPLATTER GUARD TO DESIGNERS BRINGING THEIR DIGITAL DESIGNS TO LIFE WITH TALENS ECOLINE.

This so-called hybrid manner of working is an optimal combination of both worlds, which is why we see this being done increasingly more often. The contemporary ease of the digital world, combined with the spontaneity of working by hand.

Talens Ecoline has a very high colour contrast, and designs made with Talens Ecoline can therefore be reproduced extremely well. The three primary colours lemon yellow (205), magenta (337) and sky blue cyan (578) as well as the various mixtures of these provide the best results with a four-colour printing process. They are also ideal for practising mixing colours.

You can use Talens Ecoline with brushes, airbrush, dip pens, technical pens, etc. What's more, there is now also a handy Brush Pen for highly direct work. Whatever you choose, the Talens Ecoline colours always provide a brilliant result.

Colourfully yours,
Royal Talens

NATURALLY FROM ROYAL TALENS
