Create your own...  
**Notebook**

#ForTheArtistInYou

All you need:

- **Talens Art Creation Metallic**
- **Talens Art Creation Effect liner neon colours**
- **Sponge stick**
- **Toothpick**
- **Notebook**

1. Shake the **metallic** paint before use. Use the sponge stick to add the **metallic** paint to the notebook. Let it dry for 10 min.

2. Shake the **Effect liners** before use. Press softly to add small pink and orange pearls to the notebook. Use the toothpick to change the shape

of the pearls. For example, to make a teardrop, put the toothpick in the centre of a newly made pearl and drag it to one side.

3. Add another circle of yellow and green pearls.

4. You can use the different colours to decorate the rest of your notebook. Once finished, leave to dry for 24 hours.

After use, clean the sponge stick immediately with water.
